

2006 HELLA INTERNATIONAL RALLY OF ROTORUA

QUOTE SHEET, LEG 2, SERVICE E

1 Cody Crocker-Ben Atkinson

It felt really great this morning. The first stage was really slippery in the middle parts. Every second corner my heart was in my mouth. The car is really good and I am really happy.

2 Eli Evans-Matt McAdam

It was good. The middle of the first stage was a bit slippery and I got the call wrong and got in the air a bit. But it was better than yesterday when I slid off the road.

4. Rifat Sungkar-Herkusuna Mohamad

it was nice. The first stage today was a little rough but the second stage was great. We seem to be keeping up and there's only a 20-second difference than a minute like yesterday. I had the wrong pace notes on the third stage though. May be when we did the recce it was slow but now it is really fast but we put on lots of action for the spectators and did some big slids.

5. Brian Green – Fleur Pedersen

Blown engine in SS8. Retired.

6. Dermott Malley - Linzi Malley

No turbo boost. The co-drive is happy now because I am driving slow but 110kph downhill without a turbo is as fast as I can go.

7. Fan Fan – Jun Wei Fang

The car is okay. We are happy.

8. Subhan Aksa – Hade Mboi

Retired.

9. Mark Tapper – Jeff Cress

Not bad today. We are losing time today as it just hasn't got the legs on these fast stages. We will finish though. I put my back out when we went over a bump.

10. Chris West – Garry Cowan

Restarted but retired with engine problems SS8.

11. Richard Mason – Sara Randall

It was a good morning. I now need to revise my plans now that Chris is out. There was really bad sun-strike on the first stage today. The base for these stages is really hard and is not cutting up like I thought which is good. It is quite hard racing against someone who is running 25 minutes in front of me on the road.

12. Sam Murray-Rob Ryan

It was better than yesterday. There were no spins and no punctures. We did pick tyres that were too narrow and there was some sunstrike in the first stage.

14. Todd Bawden – Damon McLachlan

Alright. It was a lot better. We are a lot closer and I am going harder today. Tried two notches back on the diff in the first stage but went back to one notch. I am starting to get use to the stage. Also had some sunstrike on the first stage and put some tape on it after that which helped.

15. Jean-Louos Leyraud – Rob Scott

Retired.

17. Glenn Smith-Colin Smith

Retired SS9.

18 Dean Sumner – Paul Fallon

Failed to restart this morning.

19. Brett Martin – Raymond Bennett

It was better than yesterday. There's been no punctures and no rain. For a change I drove fine and we only had a little bit of sun-strike which was not too bad.
